MEMORANDUM

TO: Transportation Directors

FROM: Kelley A. Nardell-Powell, Manager, Communications and Emissions Control;
Georgia Environmental Protection Division

SUBJECT: Application for School Bus Early Replacement Project using DERA
Funding

The Georgia Environmental Protection Division (EPD) is pleased to announce the funding request for early school bus replacement projects. Through the Diesel Emission Reduction Act (DERA) State Clean Diesel Grant, the U.S. Environmental Protection Agency (EPA) has awarded approximately \$300,000 to EPD for the purpose of reducing diesel emissions.

EPD is issuing a request for applications (RFA) to school systems in Georgia for the purpose of reducing school bus diesel emissions by early replacement of older school buses with newer model-year buses. School systems that choose to replace older school buses can dramatically reduce the pollution and create a healthier environment for the school children, bus drivers, mechanics, teachers, and communities where the buses operate.

School buses proposed for replacement must not have been scheduled for replacement within three (3) years of January 25, 2017. Only school buses built between the model years of 1991-2003 are eligible to be replaced, and the new buses that are purchased must be model years 2013 or newer. Project Applicants are required to match a minimum of 86.25% of the project cost.

The project application is enclosed. The application period starts September 23, 2016 and the deadline for submitting applications is 5:00 p.m. on October 21, 2016. Instructions for submitting an application are included on the application form.

If requests for funding exceed available funds, the following selection preferences will apply:

- First priority will be given to public school systems whose fleets are based in counties that have been designated as nonattainment or maintenance for PM_{2.5}.
- Second priority will be given to public school systems with fleets based in counties that have not been designated as nonattainment or maintenance for PM_{2.5}.

- Within each priority, applications will be ranked according to cost effectiveness of the project - cost per ton of emissions reduced over the lifetime of the project.

Please note that school buses purchased for the early replacement of existing school buses must remain in the fleet for a minimum of four years.

For those school systems interested in applying for the DERA School Bus Early Replacement RFA, please complete the application and submit it to EPD's Stacy Allman via e-mail, mail, or hand delivery.

Mailing and Street Address: Georgia Environmental Protection Division
Mobile & Area Sources Program
Attn: Stacy Allman
4244 International Parkway, Suite 134
Atlanta, GA 30354

E-Mail Address: stacy.allman@dnr.ga.gov

Phone: 404-363-7033

The applications are due by 5:00 p.m. on October 21, 2016. If an application is submitted by e-mail, please contact Stacy Allman to confirm receipt of the application.

Once the RFA closes on October 21, 2016, EPD staff will review each of the applications to ensure that they are eligible as stipulated in the grant criteria. The eligible applications will then be ranked in terms of cost effectiveness.

Recommendations for issuing subgrants will be made to the EPD Director based on the top-ranked projects and available funding.

If you have any questions related to the grant criteria, information contained in the cover letter or the application, please contact Stacy Allman. Note that Stacy will share the questions and answers with all of the eligible school systems, so that every potential applicant will have access to the same information. EPD staff will not be able to make comments or answer questions related to the potential scoring or viability of a project while the RFA is open.

This RFA does not commit the Georgia Environmental Protection Division to enter into an agreement, to any cost incurred in the preparation of the response to this request or in subsequent exclusive negotiations, to procure or to contract for the project. In addition, EPD reserves the right to award projects for less than the requested amount.

EPD thanks you for your time and consideration, and looks forward to receiving your application.
